

CRV LED Vaportite

Ideal for cleanroom and adverse environment.

The CRV series by Certolux is a specification-grade vapor resistant luminaire for industrial cleanrooms and other adverse environments.

It is particularly suited for corrosive and wet applications. The housing is glass reinforced polyester and together with the impact resistant lens options, makes this luminaire extremely durable. It can be surface or suspended (chain or cable) mounted and is IP65/IP66/IP67 certified, NEMA 4X rated. Options for use in Hazardous Locations are available.

CRV is DLC listed and delivers up to 140lm/W. It features an optional 120-347V driver for a higher level of flexibility.

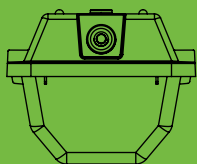

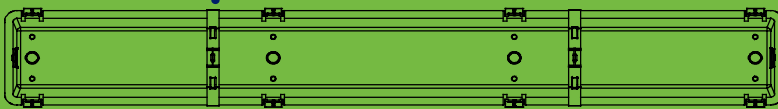

Features:

- Designed for use with Grid, Drywall or Cleanroom Panel Ceilings
- Delivered lumens: 2,100 - 20,800 lm
- Standard smooth wipe-down flush lens
- ISO 60598 IP67 Certified
- NSF2 Splash Zone Certified
- Antimicrobial finished trims
- Listed Class I, II & III Div 2, for most models
- Celcon Plastic and Stainless Steel Latch Options
