

NOTES

- Installation should be completed by an individual familiar with the construction and operation of the luminaire.
- Installation of luminaire must be in accordance with nation and local building and electrical codes.
- Carefully read and follow all warnings and instructions before installing or servicing the luminaire.
- Instructions do not cover all details and all possible product configurations
- Do not restrict luminaire ventilation.
- Ensure LED luminaire is not covered with material that will prevent convection or conduction cooling.
- Do not exceed luminaire's maximum ambient temperature.
- Ensure LED luminaire has the correct polarity before installation.
- Based on maximum voltage restrictions for class 2 circuits in Canadian Electrical Code, the output cannot be accessible. This product has accessible output terminals. This product complies with this requirement since the installation instruction requires installation in Restricted Access Area.

WARNINGS

Electric shock:

- Disconnect or turn off power before installing or servicing luminaire.
- All electrical wiring to be completed by a qualified licensed electrician in accordance with local and National/Canadian Electrical Code.
- Ensure supply voltage corresponds with the correct ballast/driver voltage.
- Avoid exposing wiring to metal edges and sharp objects.
- Ensure that the luminaire is properly grounded to prevent electric hazards.

Fire:

- Keep flammable and combustible materials away from the light source and/or lens.
- Use correctly rated supply conductors as indicated by product labeling.

Burn:

- Allow luminaire to cool before handling luminaire.

Personal Injury:

- Wear safety glasses and gloves when handling the luminaire to avoid physical injury.
- Avoid direct eye contact with light source.
- Always support the weight of the luminaire.

Viscor is not responsible for any injuries due to the improper installation or handling of its products.

INSTRUCTIONS:

1. Carefully remove diffuser from luminaire and place on clean surface top. Lay luminaire into the ceiling grid and bend out corner tabs.
2. Mount and support independently of the ceiling grid, by aircraft cable or jack chain as per local and/or national building codes.
3. Remove access plate and appropriate K.O.'s for attachment of electrical power feed cable connectors (by others).
4. Make the necessary wiring connections and ground connections per local and national electrical building codes.
5. Reattach access plate to luminaire and secure access plate screw.

Lens Installation

1. Begin with one side first. Squeeze, align and insert springs to bracket. Repeat same for the other sides.

2. Once all springs are properly installed, gently push the diffuser as far as the springs allow and installation complete.

Flush Lens D0 Removal Only

1. Insert spring (supplied) through gap and 1/4 twist to catch bottom of lens.
2. Pull down gently and grip lens around perimeter to allow for disengagement of springs.

Cleaning and Maintenance

1. Use a damp, lint-free cloth to wipe lens.

Lens Height Adjustment Instruction

Step 1

Step 2

1. To adjust lens depth, reposition end and side angle brackets to alternate hole locations.

Step 3
